

About Doreen DeSerres-DuJardin

Being sensitive to all scents and energies is what led Doreen to formulate the Nature's Spirit product line as a business in 1988, offering creations of synergistic botanicals for well-being & aromatic delight.

While being guided by Spirit and with the intention of "speaking for the plants" she is sharing a Natural lifestyle in which she specializes in creating pure parfums along with wholistic body wellness and beautification blends. Nature's Spirit is a life style shared. These plant energies hold a vibrational quality that connects our Spirit with the Divine forces of Nature that allow Soulful stimulus.

She formulates custom blends, personal care items, pure perfumes and an array of Spiritually aligned alchemical creations. Through decades Doreen has been formulating synergistic blends with only pure essential oils and vegetal carrier bases, offering only pure botanicals which are organic, wild-crafted or eco-cultivated. A "Vintage Aromatherapist", Doreen has been teaching about true Aromatherapy and the safe use of essential oils for many years. She offers her intuitive and scientific knowledge by teaching a great variety of classes & workshops. Doreen is a tutor for the Atlantic Institute of Aromatherapy and as a member of the Alliance of International Aromatherapists. Doreen emphasizes safety, integrity and knowledge in the varied uses and applications of these wondrous aromatic botanicals.

Now, Doreen with her husband Thomas DuJardin continue in creating Nature's Spirit products for Body, Mind, Spirit and Soul. Thomas has set up a wonderful web presence offering what Doreen has been originating and blending since 1988 at NatureSpirit.com. Our goal is to share the wonderful ways of Nature in safe and effective ways as we consider the individual and their needs.
